

## KCC Town Halls

The first KCC Town Hall took place on June 2nd at the Grassland facility and on June 13th at the Technology facility. We appreciate all those who attended and brought their questions for Joel. Joel will continue holding these meetings on a monthly basis and strongly encourages everyone to participate and bring forward insightful questions. If you missed the sessions, you can easily catch up by clicking button below to watch the video of the June town halls.

Looking ahead, we invite you to join us for the upcoming Technology Town Hall on July 16th from 1:00 to 1:30 pm.

To sign up, please email Greg Jefferson at [gjefferson@kccmfg.com](mailto:gjefferson@kccmfg.com). We look forward to seeing you there!

## Simpsonville Update

There have been many changes in Simpsonville this month! The building is being painted, the windows are being installed, and paving has begun in front of the building. The breakroom roof is now complete, overhead doors have been installed, and part of the second and third floor mezzanines have been poured. Very exciting to see this facility come to life!

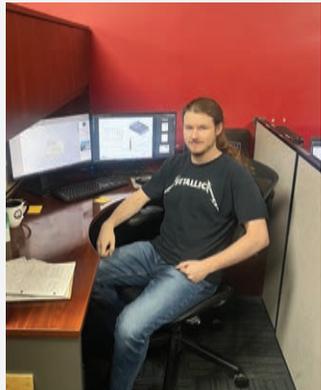

## Honoring KCC Vets

KCC is proud to announce a special initiative to honor employees who have served in our military. Those who are eligible will have an engraved brick that will display their name and branch(es) of service. This lasting tribute will be a meaningful addition to the walkway at our new Company Headquarters in Simpsonville, Kentucky.

### Who Can Participate?

**Eligible Veterans:** Any current employee of KCC with military service, verified by a DD Form 214 (active duty) or NGB-22 (National Guard/Reserves), and has been with KCC for at least 5 years.(DD214 and NGB22 are military discharges).

**For more information and directions on how to participate, read article online >**

## Employee Spotlight: Casey Martin

This month we are shining the spotlight on Casey Martin, Design Engineer I for Core Products

**What is your role at the company, and what does your day-to-day work involve?** I design curbs and troubleshoot production fixes.

**Can you share a bit about your career journey before joining the company?** I graduated from WKU in 2022 with a degree in Mechanical Engineering. I worked at a small engineering firm working on chemical reactors and spent a lot of time overseas.

**What's a fun fact about you that most people at work might not know?** I like heavy metal music.

**What's a hobby or passion you pursue outside of work?** I like to read. Everything from classics to science fiction.

**What advice would you give to a new employee starting at the company?** Learn as much as you can.

## Celebrating July Anniversaries

Congratulations to the KCC team celebrating their July anniversaries! These milestones are significant, and KCC would not thrive without everyone's dedication and effort. Here's to many more successful years!

### 5 YEARS
